FAUNA IBÉRICA. VOL. 37: LEPIDOPTERA PAPILIONOIDEA

Consejo Superior de Investigaciones Científicas, 2013. Book Condition: New. This monograph of the Fauna Ibérica Series is devoted to the five families (Papilionidae, Hesperidae, Pieridae, Riodinidae, Lycaenidae and Nymphalidae) that are grouped in the superfamily Papilionoidea, the group of Lepidoptera widely known as the butterflies, of the Iberian Peninsula and the Balearic Islands. The authors have made an effort to compile the most relevant information on each species as well as the biological information which refers specifically to the Ibero-Balearic...

Here is the finest publication we have read right up until now. It is actually written in easy words instead of difficult to understand. Its been written in an remarkably easy way in fact it is only right after i finished reading this book in which basically changed me, modify the way i really believe.
