

## Industrial Geography of Wisconsin

Filesize: 7.96 MB

### ***Reviews***

*This book will never be straightforward to start on looking at but extremely exciting to read. I actually have read through and that i am sure that i am going to gonna go through once more again in the future. I am happy to explain how this is the very best book i have read through in my individual lifestyle and may be he best publication for at any time.*

Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1911 Excerpt: . permanent buildings, foundations, monuments and memorials of all kinds. Wisconsin granite varies in color from deep red to white or gray, takes a high polish and is ranked high in the markets of the country. A most important economic use of granite is for road material, such as paving blocks and macadam. Granite paving blocks are similar in shape to common bricks, though larger, and are laid in cement in the street so as to make a very durable pavement for large cities. In some years the granite paving block industry of Wisconsin exceeds that of any other state in the Union. The principal quarries for paving blocks are at Berlin (J 11), Red Granite (J 11) and Montello (H 12). Granite is also quarried and prepared for use at Wausau, Amberg (L 6), Marinette and other places. Limestone Industry. In the limestone regions of the eastern and southern parts of the state, beds of limestone often occur near the surface. When uniform in thickness and texture, it makes fine building stone. The best grade takes a high polish and is used for interior decoration. Limestone is often crushed like granite and used for macadam for roads and streets, the Niagara limestone being best for that purpose. The quarries are so abundant that it is not possible to name all of them. Important quarries are found at Lannon (L 14), Wauwautosa (L 14), Peebles (L12), Sturgeon Bay (N 8), Waukesha (L14), La Crosse (D 12)...
