paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date: December 2012 Language: Chinese in Publisher: Jiangxi Science and Technology Press 4-year-old child: wild and wonderful age - language expression. force rapid growth year-old child's psychological key that their higher body initiative and imagination combine together. They like all the novelty. with the vagaries of the imagination to do anything excessive; coming before the age of five. was uncharacteristically quiet and contentment. Understand the characteristics and causes of the stages of child development. and focus on the child's individual differences is the first choice of parents. Your 5-year-old child: cheerful appointments of age - parent-child relationship is the most intimate and harmonious year-old child in terms of diet. sleep. excretion. dressing. washing already has an independent ability to know how to eat . most of the night sleep is a happy and smooth. urine can completely take care of themselves a basic. emotional and physical development moving in the positive direction. However. in the five and a half to six years old. the child's tension than before the increase. catharsis intensity has been enhanced. Your 6-year-old child: rebellious sweet age - the inner contradictions most prominent one typical six-year-old child. a little contradiction. two extremes. His greatest distress is not only rely on her mother. and they want to leave her mother. looking forward towards independence. so the age of six. is the starting point for the child with his mother really began to separate. From about five and a half to six years and a half. many of the behaviors of the children appeared from all aspects suddenly turned. towards the direction of apparent opposites. However. from a six-year-old is too energetic and tyrannical unruly....
