iUniverse, United States, 2006. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The author s generation has witnessed and experienced a diversity of events in a timeframe smaller than any ever experienced in the past, and will not likely be experienced again. Generations to follow will not have the same opportunity to experience these same life-changing events, especially in the way the author did. This book affords the present generation and generations to follow an opportunity to experience through the author s writings some of those same events, some simple and some extraordinary, during this rewarding period in his lifetime. From a young black male s prospective growing up in the rural South, the author lived and experienced what life offered during the period. Beginning from early childhood, the author tells about his desire to learn and his pursuit of limited educational opportunities. Sections of the book give some of the author s first time experiences, many of historical significance. Throughout his growing up years, strong relationships with his siblings and his father were readily apparent. After giving rich accounts of his youth, the author shares his experiences as a young soldier during World War II, and lastly, experiences he believes contributed to his life calling-that of being an educator and mentor to youths.
