

Illustrated Scientific and Descriptive Catalogue of Achromatic Microscopes: Manufactured by J. W. Grunow New Haven, Conn (Classic Reprint)

Filesize: 4.11 MB

Reviews

This ebook will be worth acquiring. It is actually written in basic phrases instead of hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Trystan Yundt)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Illustrated Scientific and Descriptive Catalogue of Achromatic Microscopes: Manufactured by J. W. Grunow New Haven, Conn In presenting to the public this Illustrated and Descriptive Catalogue, it is our intention to furnish, especially to those living at a distance, the means of becoming acquainted with the various forms and qualities of the microscopes and microscopical apparatus which we manufacture. Having been engaged almost exclusively, for a series of years, in the manufacture of this important instrument, we have devoted great care and attention to improving the structure of the mechanical parts, as well as to perfecting the quality and efficiency of our object-glasses, and the optical parts in general. The extensive patronage with which we have been favored affords sufficient evidence that in our efforts to deserve the confidence of the scientific public we have not been without success. But while it has been our object to bring to perfection the branch of practical optics to which we have devoted ourselves, we have been constantly adding to our facilities for manufacturing the various apparatus connected with the microscope. By the introduction of machinery especially adapted to our purposes, and by a judicious division of labor, we have endeavored to secure the most finished workmanship in every part, at such prices as shall place the most perfect instruments within the reach of all the lovers of science and students of nature.
