The role of the community midwife differs dramatically from that of a hospital based practitioner but many midwives entering this area of practice may not feel well equipped for this diverse experience. Community Midwifery Practice is the first text specifically tailored to meet the needs of community midwives, providing a practical, skills-based guide to improving and underpinning their day-to-day practice with an emphasis on normal birth and the importance of developing relationships with the women they are charged with helping. This accessible text includes information on the broad range of skills required by midwives working in community settings, providing practical guidance on issues such as supporting women with HIV/AIDS, issues surrounding domestic abuse, perinatal mental health, and pelvic girdle pain. Community Midwifery Practice will provide all midwives who work in community placements with a comprehensive, accessible tool designed to assist them in all aspects of their practice.
