Transformational leadership has been singled out as the most appropriate leadership style needed to foster organizational learning. Consonant with the above background, this study aimed at establishing the nature of transformational leadership and organizational learning existing in public universities, and establishing the relationship existing between transformational leadership behaviours and organizational learning in public universities in Uganda. Correlational research design guided this study and data for this study was collected using questionnaires and interview guides. The sample of the study consisted of 330 academic staff from four public universities in Uganda.
