All memory of a great society called America has vanished in the passing centuries since the Cataclysm. Much that was lost. All that will be is in peril. Once a street beggar known as "Scar" became a prince named Arn. A bastard prince is called once again to sacrifice for his brother's kingdom, and for the future, in this newly dawned age of fragile armistice. On the far side of a vast, nightmarish landscape of bloodthirsty warriors and mutant beasts--in a mysterious land on a far western shore--treachery threatens to undermine the ancient Codes that would prevent a reoccurrence of the disaster that devoured a civilization. And Arn must lead a small band of might and magic through hell--and into the unknown and subtle terrors that await them in Pacifica--to build a lasting peace. . .or to serve as the instrument of dread annihilation.
