

An Outline of Logic (Classic Reprint)

By Boyd Henry Bode

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 342 pages.

Dimensions: 9.0in. x 6.0in. x 0.7in. Excerpt from An Outline of Logic The aim of this volume is, among other things, to give a concrete discussion of ambiguity, to simplify the study of causal connections, and to treat with greater detail than is usually done the type of inference called circumstantial evidence, the nature of proof, and the postulates of reasoning. The place assigned to the syllogism is relatively small, the subject being presented with a minimum of detail. In the distribution of emphasis, the function of logic as a guide in reasoning has been constantly borne in mind. It is partly for this reason that the illustrations are, as a rule, taken from other sources than the physical sciences, because I incline to think that in the past these latter have been relied upon more than is desirable. Finally, I have added a chapter on sense-perception, in the hope that it will aid in making logic a propedeutic to philosophy. A word or two of explanation may be in place regarding the discussion of causal connections. I have ventured to depart from the treatment made classic by J...

Reviews

The best publication i actually study. We have study and that i am certain that i will likely to study once more again later on. Your daily life span will likely be transform the instant you total reading this book.

-- **Mrs. Alene Leffler DVM**

The most effective publication i ever study. I am quite late in start reading this one, but better then never. You wont sense monotony at whenever you want of your time (that's what catalogs are for concerning in the event you ask me).

-- **Prof. Erin Larson I**
