They had asthma as a child - but as they grew up - it just went away. Doctors say that it happens, but offer no reason why or instructions on how to have it happen to you. You may also know people who get adult onset asthma. Someone in their 40s, 50s or even older gets asthma for the the first time. Often this happens after a crisis of some kind - perhaps an operation, a death, an illness or even childbirth. People who had no asthma before - now have it. This book is the key to both understanding how this happens, and of how to use the information in practice - to grow out of asthma. You will first learn of the incredible results that have published in medical journals that show that this is very, very effective. (Average 90 decrease in relief medication, and then massively reduced steroid need. (Medical Journal of Australia. ))You will understand HOW: - You can be asthmatic (able to have asthma), but are in perfect health with no symptoms at all. Published Clinical Trials proved that learning the method in this book makes you asthma symptoms disappear (average 90) - but doctors say their underling asthma has not changed. - You can make your symptoms appear and disappear using only your breathing. Just by knowing what makes people grow out of asthma will change your thoughts forever about it. The fear is gone, and over time so will your symptoms be gone. - You do NOT need to change your medications for this to work for you. In fact - you are given clear instructions on how to work with your...
