

Research in Practice for Forensic Professionals (Paperback)

By -

Taylor Francis Ltd, United Kingdom, 2011. Paperback. Condition: New. New. Language: English . Brand New Book. This book explores applied research methods used in forensic settings - prisons, the probation service, courts and forensic mental health establishments - and provides a comprehensive how-to guide for forensic practitioners and researchers. It provides practitioners and researchers with grounding in the practical techniques appropriate for research in applied forensic settings. This includes knowledge and skills of the research process and the wide range of research methods (both quantitative and qualitative) being applied in this arena. The text provides a critical understanding of the problems, challenges and ethical issues which can arise and ideas for managing these. Specific attention is paid to empirical research within forensic populations and settings including researching vulnerable groups (e.g. offenders and the mentally ill in secure settings), evaluating treatment programmes, and the uses and problems of randomised control trials. The book is clearly structured, with each methodology chapter describing the background of the approach; the type of research questions addressed; design principles and issues; the types of analysis that can be utilised; strengths and limitations of the method; future directions and further sources of information. Through the inclusion of...
