HOMEBREW CHURCHES (PAPERBACK)

Wipf Stock Publishers, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.With the continual appearance of evidence that the emerging generation (the iGens) is not at all enamored of institutional churches, and is ignoring or forsaking them, it seemed a good time to take a step back, take a deep breath, and take a fresh look at what the church was intended to be and do in the New Testament document. The author spells out the landscape and reviews the profile of recent generations, and then sets about to set forth the church as the communal component of God's new creation in Christ. He engages in some challenges to the traditional understanding of the church, but sets forth a lively proposal in which every participant becomes interactive with the others, hence small fellowships. The younger iGens are into relationships, not institutions. This book portrays the church in relational terms, i.e., a church delivered from captivity to institutions and church professionals, hence a book that is controversial and perhaps a bit cheeky . . . but constructively challenging. The title is somewhat highjacked from the phenomenon known as the homebrew computer club, which is made up of six early computer scientists from whose creativity and relationship emerged much of the present computer and internet age. The church would be Christ's new community if everyone in the church loved it like Bob Henderson! In his newest book, Henderson's love is channeled into the determined and creative labor of trying to re-conceive the church for the twenty-first century. Gripped by the love of Jesus Christ for a changing world and generations, Henderson raises just the critical questions for fresh consideration and action that we must all take seriously. --Mark Labberton, President, Fuller Theological Seminary,...
