This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1869. Excerpt: . . . LECTURE XII. HEMATURIA AND RENAL CALCULUS. Gentlemen, --I propose to-day to complete the programme I originally designed for this course by considering a phenomenon of common occurrence known as Haematuria. Let us define the term. What is Haematuria The outflow of urine containing blood in admixture. Thus bleeding from the penis at other times than at that of micturition is, of course, not haematuria. Bleeding coincident with micturition from chordee, or operation, or from any known injury in the course of the urethra, is also not to be included. The blood then usually issues by the side of the stream of urine, and is only partially mixed at its line of contact, or it may follow rather than accompany the urine. Haematuria, then, is a symptom. Its presence is, in all cases of urinary disease, to be sought. Hence the inquiry forms one question--the...
