For the past century this name has been associated with a famous fleet of streamlined passenger trains, and today's piggyback and container trains. This is the first of three Volumes featuring the Santa Fe System. Volume One features the organization of the railroad back in 1866, follows its construction from Topeka to California, from Topeka to Chicago, and operation of the trains. It covers the roads venture into Mexico, development of local lines within California, tells about electrification possibilities, the Santa Fe bus system, Santa Fe's venture into air-rail transportation with participation in Transcontinental Air Transport, Santa Fe Skyways, mergers, and up to the pending merger with Burlington Northern (1995). This Volume also presents a comprehensive review of the Santa Fe's motive power fleet from the earliest 4-4-0 type locomotives, to the giant 2-10-10-2s....
