Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The international saga of Andrew Speaker, a traveler thought to have XDR-TB, a drug-resistant form of tuberculosis, placed a spotlight on existing mechanisms to contain contagious disease threats and raised numerous legal and public health issues. This report presents the factual situation presented by Andrew Speaker. It also discusses the application of various public health measures available to contain an emerging public health threat posed by an individual who ignores medical advice and attempts to board an airplane or take other forms of public transportation. These measures include quarantine and isolation authorities, the Do Not Board List, and application of certain provisions of the International Health Regulations. This report also examines constitutional issues relating to due process and equal protection. Legal issues which may be raised by application of federal nondiscrimination laws when emergency public health measures are used to contain emerging public health threats are also discussed.
