Excerpt from Fig Culture in California Commercial fig orchards appear to have been established in the coast counties, and even in the Sacramento Valley and the Sierra Foothills, earlier than in the San Joaquin Valley. In 1876 there were trees in Yolo County, in Tuolumne, and only 685 in Fresno County. An orchard of 27 acres of White Adriatic fig trees was planted at Fresno about 1885, the first carload of dried white figs being sent east in 1889. The White Adriatic was the most widely planted variety during the two decades following 1885 but the dried product lacked the tenderness of skin and the flavor of the imported fig from Smyrna. The Year book of the United States Department of Agriculture for 1897 stated that the White Adriatic has many points of merit, but the fact that its quality when dried is inferior to that of the imported dried fruit from Smyrna has resulted in several efforts to introduce and grow the Smyrna type of fig.
