

M8 Greyhound Light Armored Car 1941-1991 (Paperback)

By Steven Zaloga

Bloomsbury Publishing PLC, United Kingdom, 2002. Paperback. Condition: New. Tony Bryan (illustrator). Language: English . Brand New Book. The M8 light armoured car was the only significant wheeled combat vehicle used by the US Army in World War II. In conjunction with the light armed utility version, the M20, it was the staple of the army's cavalry squadrons for use in reconnaissance and scouting. First entering combat in Italy in 1943, it was widely used throughout the campaign in northwest Europe, though its off-road performance was found to be wanting. This title describes the design and development of the M8, the many variants that were produced during World War II and afterwards, along with a comprehensive survey of its operational use.
