SMALL RUMINANT: EMERGING DISEASES CONTAINMENT UNDER WTO REGIME

Satish Serial Publishing House, 2007. Hardcover. Condition: New. Goats and sheep are the two important livestock species in the livestock production systems and are undergoing a phenomenal change during last few years. Its economic importance has further increased and likely to zoom in coming years. They support a large population of the rural landless and marginal farmers and have an important role to play in any programme aimed to alleviate rural poverty and livelihood security particularly in arid, semiarid and...

Reviews

This ebook will be worth acquiring. It is actually written in basic phrases instead of hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.
