LOST WORLDS (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.9/11 and nine others stories to show the stupidity and arrogance of the people. Ten stories dedicated to the victims of wars caused by crazy mythomaniacs. Why a second edition? The reason is as simple and clear as water: when, after some time, an author decides to go back to his previous works, he very often feels the desire to modify some parts of the content which he holds obsolete toward his style, which has evolved in the meantime. Nothing remarkable for the story, unchanged. Just little strokes here and there, devoted to those improvable words. The addition of three new stories is a gift for those who have already read the first edition, and a novelty for those who are approaching my world for the first time. If you, like me, do not like discovering details about stories before time, then I suggest you skip the introduction, leaving it for the end. Enjoy! Also, do not forget that some of the gains obtained from the book will be transferred to Doctors Without Borders account.
