Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book is targeted to conservative investors, retirees and/or couch potatoes who do not want to spend a lot of time in managing their investments. This book helps someone looking for simple but profitable strategies in investing. It only takes about half an hour a month to monitor the market and decide what stocks to buy and sell. We can reduce risk in investing by: -Market Timing via simple technical indicators that are readily available free and simple to use. We do not want to invest when the market is plunging. -Market Timing for stocks and sectors. -Select safer stocks to buy. -Select safer sectors. -Diversify via stocks in different sectors and ETFs. -Produce income via dividends and covered calls. -A strategy that is safe and performs. -Avoid pitfalls and common mistakes. This book uses the advanced strategies described in my other books but in very simplified instructions. Last Update: 09/2016. 250 pages (6*9).
