

Creative-C Learning Systemliteracy at a Young Age

By Dr. Pierre F. Walter

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 282 pages. Dimensions: 9.0in. x 6.0in. x 0.7in. CREATIVE-C LEARNING presents a pre-school curriculum for a sane, holistic, brainsmart and systemliterate education of small children. The authors educational approach is tailored to how our brain works and develops from ages 2 to 6. Its a functional approach, not an idealistic one, based on the actual constitution of the human being, with all the complexity inherent in it. The author contends that children are born sane and are rendered more or less insane by an educational system that till now considers the human being as the impossible human, that is, a creature that is basically faulty and has to be improved and upgraded by education, and morality. The present view opposes this age-old educational paradigm and shows that traditional education brings about fragmentation, ignorance and widespread violence. A loving education as outlined in the Curriculum Part emphasizes the natural integrity and wholeness of the small child, who is by nature a systems thinker. The curriculum builds upon this fact and presents a way to raise pre-schoolers in a learning environment that fosters systemic thinking capabilities, so that children become...
