

Moral Science: A Compendium of Ethics (Classic Reprint) (Paperback)

By Alexander Bain

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Moral Science: A Compendium of Ethics The first division, entitled The Theory of Ethics, gives an account of the questions or points brought into discussion, and handles at length the two of greatest prominence, the Ethical Standard, and the Moral Faculty. The second division - On The Ethical Systems - is a full detail of all the systems, ancient and modern, by conjoined Abstract and Summary. With few exceptions, an abstract is made of each author's exposition of his own theory, the fulness being measured by relative importance; While, for better comparing and remembering the several theories, they are summarized at the end, on a uniform plan. The connection of Ethics With Psychology is necessarily intimate; the leading ethical controversies involve a reference to mind, and can be settled only by a more thorough understanding of mental processes. Although the present volume is properly a continuation of the Manual of Psychology and the History of Philosophy, recently published, and contains occasional references to that treatise, it may still be perused as an independent work on the Ethical Doctrines...

Reviews

This publication might be worthy of a read through, and superior to other. It normally is not going to charge excessive. Its been written in an remarkably simple way and is particularly just after i finished reading through this book through which in fact transformed me, alter the way i really believe.

-- **Juston Mraz**

This book will be worth purchasing. This is for anyone who statte that there had not been a worthy of looking at. Your daily life span will likely be convert when you total looking over this ebook.
