

User's Guide to Securing External Devices for Telework and Remote Access (Paperback)

By U S Department of Commerce, Karen Scarfone, Murugiah Souppaya

Createspace Independent Publishing Platform, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This publication helps teleworkers secure the external devices they use for telework, such as personally owned and third-party privately owned desktop and laptop computers and consumer devices (e.g., cell phones, personal digital assistants [PDA]). The document focuses specifically on security for telework involving remote access to organizations nonpublic computing resources. It provides practical, real world recommendations for securing telework computers operating systems (OS) and applications, as well as home networks that the computers use. It presents basic recommendations for securing consumer devices used for telework. The document also presents advice on protecting the information stored on telework computers and removable media. In addition, it provides tips on considering the security of a device owned by a third party before deciding whether it should be used for telework.

Reviews

This book is really gripping and fascinating. Of course, it is actually play, nonetheless an interesting and amazing literature. You will not feel monotony at anytime of the time (that's what catalogs are for about if you request me).

-- **Delbert Gleason**

These kinds of pdf is the ideal ebook accessible. Of course, it is actually play, nevertheless an interesting and amazing literature. I realized this publication from my i and dad suggested this book to find out.
