HUMAN FLESH: (5TH STAGE OF MATTER) (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Introduction Flesh is the soft substance of the body of a living thing. Humans are classified as Mammals. In the classical physics observed in everyday life in the Universe has the flesh of all mammals, it is said to be composed of matter; this includes atoms (and thus molecules) and anything made up of these. Nevertheless, quarks and leptons together make up ordinary matter, and their interactions contribute to the effective volume of the composite particles that make up all mammals matter. The 5th stage of matter is considered flesh. Therefore, Matter exists in five stages (or phases): solid liquid gas plasma Flesh In the context of human flesh as in all mammals, mass is not an additive quantity, in the sense that one can add the rest masses of particles in a system to get the total rest mass of the system. Thus, in relativity usually a more general view is that it is not the sum of rest masses, but the energy-momentum tensor that quantifies the amount of matter. This tensor gives the rest mass for the entire system. Matter therefore is sometimes considered as anything that contributes to the energy-momentum of a System, that is, anything that is not purely gravity. This view is commonly held in fields that deal with meat such as flesh. In this view, meat and other muscle particles and fields are part of matter. If I could have changed anything, I would not be here today writing this book. It would have altered my life. After all is said and done. I hope to leave a TRAIL: Truth, Remembrance, Acknowledgement, Intrigue and a Legacy. Therlee Gipson.
