

City School Expenditures and Interrelation of the Various Items Volume 5

By George Drayton Strayer

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1905 edition. Excerpt: .equals (67--58 = 9) nine. After we have found the 2 Q, the relation which it bears to the median gives us a still better idea of the variability of the group. If it is desired to compare the variability of the group in several traits, the relation of the 2 Q to the square root of the median is more exact than either of the figures before suggested because this measure will be less affected by errors due to inaccuracy of measurements, or to the small number of measurements made. In the table below, 2 Q, the per cent, which 2 Q is of the median, and the per cent, which 2 Q is of the square root of the median are given. This table is derived from the frequency tables, Tables X to XXVII inclusive. In the diagrams which follow, the variability...
