Excerpt from Anthropological Papers of the American Museum of Natural History, Vol. 25: Vol. XXV, Part I Still another negative feature merits attention. Several Plains tribes notably the Hidatsa, Blackfoot, and Arapaho utilize widespread tales to account for the origin of rituals. For example, the Blood combine the piqued buffalo wife story with an explanation of the beginning of the Horn society. This type is singularly lacking among the Crow. They have, of course, traditions purporting to explain the origin of ceremonies, but these are plotless narratives of individual Sxperiences with the powers revealing the performances.
