

Basic Science for Modern Cosmetic Dermatology

By Chakaravathi Srinivas, Michèle Verschoore & Claire Battie (Eds)

Jaypee Brothers Medical Publishers (P) Ltd., 2015. Hardcover. Condition: New. First edition. This textbook is the fruit of intense dialog and work between renowned Indian dermatologists with expertise in Cosmetic Dermatology and international scientists known for their excellence in basic Cosmetic Science. This textbook is aimed at readers who wish to have a broad overview of cosmetic dermatology including the most recent advances in basic Cosmetic Science. It will help each Indian practitioner to better apprehend the science behind modern cosmetics and guide him or her towards adapted cosmetic recommendations for each patient. Each chapter was co-written by Indian experts and International experts, and this methodology has resulted in outstanding mutual understanding. I wish to thank all authors for this intensive work leading to this positive outcome. Key Features Cosmetic Dermatology is a science that endeavors to define the most appropriate preventive and therapeutic measures for skin and hair care. With the increase in life expectancy worldwide, a preventive approach with cosmetics is particularly important, and is sustained by numerous scientific works. This book gathers together advances in the basic science in cosmetic dermatology for a better understanding of physiology that underlies the most relevant prevention strategies for a maintenance...
