The letters were taken directly from the files of some of the largest business concerns in the country and are reproduced with but very few minor changes. There are more than sixty plates of shorthand. The value of the reading and writing of these plates can not be no estimated. These plates were produced from photo-engravings of the outlines direct from pen copy written by the author, and should be read and written many times by the student. The dictionary contains quite a complete vocabulary of the words used in business. The author would advise the student to consult it frequently for the best outline. A complete mastery of this work will aid the student in any field of stenographic work. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
