Guide for Information Security Program Assessments and System Reporting Form 2. System Assessment The System Reporting Form is a tool for documenting an assessment of the security controls in place for a major application or a general support system. Before a system is assessed, there are key security-related activities that should be completed. An inventory of all systems should be conducted, and then all systems should be categorized according to their impact on the agency's mission. A determination must then be made as to the boundaries of the system, keeping in mind the impact of the information stored within, processed by, or transmitted by the system (s). A completed general support system or major application security plan, which is required under OMB Circular A-130, Appendix III, should describe the boundaries of the...
