

Typed Lambda Calculi and Applications

By Pierre-Lurien Curien

Springer-Verlag GmbH Jun 2009, 2009. Taschenbuch. Condition: Neu. Neuware - This volume contains the papers of the 9th International Conference on Typed Lambda Calculi and Applications (TLCA 2009), which was held from July 13, 2009, in Brasilia, Brazil, as part of the 5th International Conference on Rewriting, Deduction, and Programming (RDP 2009) together with the International Conference on Rewriting Techniques and Applications (RTA 2009), the International School on Rewriting (ISR2009), the 4th Workshop on Logical and Semantic Frameworks with Applications (LSFA2009), the 10th International Workshop on Rule-Based Programming (RULE 2009), the 8th International Workshop on Functional and (Constraint) Logic Programming (WFLP 2009), the 9th International Workshop on Reduction Strategies in Rewriting and Programming (WRS 2009), and the annual meeting of the IFL Working Group 1.6 on term rewriting. The TLCA series of conferences serves as a forum for presenting original research results that are broadly relevant to the theory and applications of lambda-calculus. Typed lambda-calculi are underlying programming language semantics and implementation on one hand, and a large part of proof theory on the other hand. Previous TLCA conferences were held in Utrecht (1993), Edinburgh (1995), Nancy (1997), L'Aquila (1999), Krakow (2001), Valencia (2003), Nara (2005), and Paris (2007). For TLCA 2009, 27 papers were accepted out of 53 submissions. Each paper was reviewed by at least three members of the Program Committee, with the help of 84 external reviewers...

Reviews

This type of publication is almost everything and taught me to hunting ahead plus more. It is written in easy terms rather than difficult to understand. Your way of life period will likely be transformed once you comprehensively look at this ebook.

-- **Gladyce Reinger**

This is actually the finest pdf I have got to study right up until now. It can be full of wisdom and knowledge. Once you begin to read the book, it is extremely difficult to leave it before concluding.
