Tortured Reality: How Media Framing of Waterboarding Affects Judicial Independence (Paperback)

By Laura Henderson

Eleven International Publishing, Netherlands, 2012. Paperback. Condition: New. Language: English . Brand New Book. Judicial independence is not just an abstract principle to which government systems, ensuring the rule of law, must adhere. It is also a concrete standard, set out in binding (as well as in some non-binding) human rights documents and enforced by human rights courts all over the world. These documents and courts have developed legal norms relating to judicial independence. However, have they taken into account the shaky nature of the assumption that individuals and institutions can exert true agency, uninfluenced by their environments? Tortured Reality addresses this question by studying the particular issue of the effect of the frames employed in print news media on judicial independence. The research question is whether the print news media's framing of the practice of waterboarding influenced judicial opinions of this practice. If so, did this influence compromise judicial independence as defined in international human rights documents? The book concludes that the current protection offered by international human rights law against undue influence from the media on the judicial process is insufficient. Although these standards do address the media, they do not take into account the influence the...
