Not illustrated. 1915 Excerpt: . the money value during a given fiscal period for expense material, such as waste, machine oil, etc., indirect labor charged to standing shop expense orders, all variable plant charges covering such items as power, lighting, heating, plumbing, repairs, maintenance, etc. The next chapter will outline the various methods employed in determining and distributing the expense burden. of copying and posting. The traditional method is to post all labor costs from time cards or job slips to larger slips arranged by order numbers, a separate sheet or card being used for each separate piece on a given shop order. Figure 48 illustrates a typical labor cost card of this sort. Assembling The Cost Data Figure 47 illustrates a stiff manila envelope arranged for filing in a standard card-index drawer, the envelope being designed to hold material withdrawal slips and Fig. 47.--Stiff Manila Envelope to Contain Material...
