

Unmanned Aerial Vehicles: Maneuver System Schedule Includes Unnecessary Risk: Nsiad-95-161

By -

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 22 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. GAO reviewed the Joint Tactical Unmanned Aerial Vehicle (UAV) program, focusing on the Joint Tactical UAV Project Offices proposed acquisition strategy for the Maneuver system. GAO found that: (1) past UAV acquisition programs have been marked by premature entry into production that resulted in extensive and costly system redesigns in an attempt to achieve acceptable system performance; (2) the Joint Tactical UAV project office plans to begin production of the Maneuver system without adequate assurance that it can meet operational performance requirements; and (3) the premature production of the Maneuver system will unnecessarily put the Department of Defense at risk of becoming committed to acquiring an unsatisfactory system. This item ships from La Vergne, TN. Paperback.

Reviews

It is a single of my favorite pdf. Yes, it is engage in, still an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

I just started off reading this article publication. It is definitely simplistic but surprises in the 50 percent of your ebook. You are going to like how the author create this publication.
