Reviews

Very helpful to any or all category of folks. It is written in simple phrases rather than difficult to understand. It has been developed in an exceptionally simple way and is particularly just after I finished reading this pdf in which basically transformed me, modified the way in my opinion.

LABORATORY MANUAL OF GENERAL CHEMISTRY: WITH EXERCISES IN THE PREPARATION (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Laboratory Manual of General Chemistry: With Exercises in the Preparation This laboratory manual has been written to meet the requirements of students of chemistry who already possess an elementary knowledge of the subject, such, for instance, as is acquired at our better high schools. How best to continue the chemical education of such students is one of the most difficult problems which confront teachers of chemistry in our colleges and universities. A time honored practice has been to ignore secondary school preparation entirely and give identical instruction to these men and to real beginners indiscriminately. This was doubtless justifiable some years ago when chemical instruction was new in our secondary schools and was, naturally, poor; but today it can only be defended on the ground of necessity. The larger institutions recognize this where the number of elementary students is adequate, and either have arranged separate laboratory sections for the differently prepared students, or, better still, give them wholly separate instruction. But even when segregation of this kind has been secured, the problem is by no means solved. Those students who have studied chemistry in the secondary school have already done a large share of the simple, important, and impressive experiments. The first freshness of their, interest in, and wonder at, chemical phenomena has been lost. On the other hand, to trust that the average college student retains any clear conceptions regarding the abstract matter of his secondary school chemistry, which is so important as a basis for further study, is to court disappointment. Besides, as every experienced college teacher knows, the very familiarity of such students with parts of the subject frequently leads to over-confidence about...
