Reviews

*Absolutely one of the better ebook We have ever study. it had been writtern quite completely and valuable. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Carol Lehner II)*

THE DIGITAL PHOTOGRAPHY BOOK, PART 2 (PAPERBACK)

DOWNLOAD

Pearson Education (US), United States, 2013. Paperback. Condition: New. 2nd edition. Language: English . Brand New Book. Scott Kelby, author of The Digital Photography Book, part 1, the top-selling digital photography book of all time, is back with an entirely new book that picks up right where part 1 left off. It's more of that Ah ha-so that's how they do it, straight-to-the-point, skip-the-techno-jargon stuff you can really use today that made part 1 so successful. This book truly has a brilliant premise, and here's how Scott describes it: If you and I were out on a shoot and you asked me, When I use my flash, the background behind the person I'm shooting turns black. How do I fix that? I wouldn't give you a lecture on flash ratios, or start a discussion on flash synchronization and rear curtain sync. I'd just say, Lower your shutter speed to 1/60 of a second. That should do it. Well, that's what this book is all about: you and I out shooting, where I answer questions, give you advice, and share the secrets I've learned just like I would with a friend-without all the technical explanations and techie photo speak. Each page covers a single concept on how to make your photography better. Every time you turn the page, you'll learn another pro setting, tool, or trick to transform your work from snapshots into gallery prints. If you're tired of taking shots that look okay, and if you're tired of looking in photography magazines and thinking, Why don't my shots look like that? then this is the book for you. This isn't a book of theory-full of confusing jargon and detailed concepts. This is a book on which button to...
