Colleges trial materials Chang'an Road Traffic and Transportation Engineering Experiment Teaching Center. the experimental teaching guide books (set 7) Set the book. respectively. include: Logistics Engineering Experiment Volume experimental volumes of traffic safety engineering, engineering thermodynamics and engine principle experiment Volume. Vehicle Inspection Technology Experiment Volume. Automotive application of engineering experiments Volume. automotive structures the experimental volumes, vehicle performance experimental volumes. In modern society. the economy, the logistics system determines the configuration and the rational flow of factors of production, directly restricts the degree of utilization of social resources and utilization levels. thereby restricting the macro-economic efficiency and microeconomic efficiency. Modern logistics as an advanced organization and management techniques. is the source of enterprises to reduce costs. improve efficiency plays an important role in the economic and social development. In the trend of global economic integration. the logistics of this emerging industry in recent years been expanding in China. in 2009. the logistics industry has been listed as the revitalization of China's top ten industries. At the same time. demand for all kinds of logistics talent is increasingly urgent. logistics personnel has been identified as one of the shortage of qualified personnel of 12 categories. The face of the enterprise market demand for logistics personnel always on the lookout. domestic everyone colleges. training institutions. professional education. short-term training is in full swing to carry out. However, due to logistics education and training institutions to provide a short time. lack of experience, leading to the breeders and the practical needs of the enterprise deviation is often theory more than a lack of practice.Four...
