

How Cancer Crossed the Color Line (Hardback)

By Keith Wailoo

Oxford University Press Inc, United States, 2011. Hardback. Book Condition: New. 236 x 157 mm. Language: English . Brand New Book. In the course of the 20th century, cancer went from being perceived as a white woman s nemesis to a democratic disease to a fearsome threat in communities of color. Drawing on film and fiction, on medical and epidemiological evidence, and on patients accounts, Keith Wailoo tracks this transformation in cancer awareness, revealing how not only awareness, but cancer prevention, treatment, and survival have all been refracted through the lens of race. Spanning more than a century, the book offers a sweeping account of the forces that simultaneously defined cancer as an intensely individualized and personal experience linked to whites, often categorizing people across the color line as racial types lacking similar personal dimensions. Wailoo describes how theories of risk evolved with changes in women s roles, with African-American and new immigrant migration trends, with the growth of federal cancer surveillance, and with diagnostic advances, racial protest, and contemporary health activism. The book examines such powerful and transformative social developments as the mass black migration from rural south to urban north in the 1920s and 1930s, the World War...
