Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Apropos of Spelling Reform The making of the table has involved far more labor than I anticipated, and the results which flow from it are discouragingly indefinite. Of course, the table as it stands is not really based upon any phonetic principle, but rather illustrates the various effects and the state of usage (so far as shown by the dictionaries in question) in respect to the spelling of the words in one form or the other. The principle of simplifying our spelling, and remotely of phonetic spelling, is, however, involved in it, but I should like to have presented the words grouped according to a phonetic analysis, which lack of time prevents me from doing. It is to be hoped that should such a table prove suggestive and helpful others of similar and fuller detail, better conceived and better executed, on phonetic principles, will be at hand for the use of those who shall be instrumental in the solution of our spelling problem. There is one improvement, however, that scholars might accomplish without the aid of such tables. By the exercise of an amount of sweet reasonableness and mutual concession a common and uniform system of transliteration might be established; and this ought to be done. The preparation of the table was in brief this: I ran hastily through Webster's International Dictionary and listed the terms belonging to any of the three classes. Those words, such as equal, sphere, economies, etc., that are settled in their spelling in the e form or the i form, so that there is now ordinarily no consciousness of the existence of two forms, were intentionally omitted from the list; a few...
