Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Addiction is a complex problem, with social, psychological, and biological underpinnings. The scope of the problem is at epidemic proportions. Thanks to decades of scientific research, we are better equipped than ever to comprehend the causes, complications, and effective social and medical treatments for addiction. Navigating the physical, medical, emotional, and social aspects of addiction can be overwhelming to patients, families, and even treatment providers. Many publications deal with this topic, however most are thin pamphlets or thick scientific treatises. Why do some people get addicted and others do not? What do we do about addiction? She uses all her training and knowledge to comprehensively treat individuals and families, looking at micro- and macroscopic imbalances affecting mental wellness. A specialist in addiction medicine, Dr. Podesta treats addiction and substance use through a neurobiological, genetic, and holistic medicine lens. She holds several positions-clinical faculty at Tulane University, medical director at several addiction treatment facilities, and consultant for the courts. She also has a boutique private practice where she collaborates with a holistic team, including psychotherapists, a nutritionist, massage therapists, and an acupuncturist. She lectures often on addiction...
