El Cielo, Las Estrellas y La Noche (the Sky, the Stars, and the Night) (Paperback)

By Jean-Pierre Verdet

ALTEA, Mexico, 2015. Paperback. Condition: New. Language: Spanish . Brand New Book. Por que hay dia y noche? Porque la Tierra gira sobre si misma en 24 horas y porque el Sol no puede iluminar mas que un lado a la vez. El cielo, las estrellas y la noche ilustrado por Christian Broutin, Henri Galeron y Pierre-Marie Valat, es un libro de la coleccion Altea Benjamin, la enciclopedia para responder a las preguntas de los ninos que ya leen solos. ENGLISH DESCRIPTION Why is there day and night? Why does the Earth rotate on its axis and comes full circle in 24 hours? Why does the Sun only illuminate one side of the Earth at a time? Fascinating information about space and celestial bodies. It ends with a guide for observing the stars, biographical information on six preeminent astronomers, and poems by Lope de Vega and Jorge Luis Borges.

Reviews

Extensive manual! Its this sort of very good study. It is rally fascinating throug reading time period. I am just pleased to explain how this is actually the finest publication we have go through during my personal life and can be he greatest ebook for actually.

-- **Henri Runolfsdottir**

Completely essential read through book. It normally is not going to charge an excessive amount of. I found out this book from my dad and i advised this pdf to find out.
