Why should you want to read The Z-Book This book is designed to give an overview of the SR and ED Program of the Canadian Tax Credits and Refunds System to the busy executive and the business ownermanager. In order to keep the Canadian businesses competitive in the present global market, the Canadian government offers one of the most generous incentives to Canadian businesses to encourage them to engage in scientific research and experimental development (SR and ED). It is also available to foreign corporations conducting SR and ED in Canada. It is estimated that only a very small fraction of those eligible actually apply for this credit. It is also estimated that in the last fiscal year tax credits running into billions of dollars were approved, including refunds to eligible businesses. There is no upper limit set by the Government as to the amount of tax credits it is willing to give to eligible businesses with regard to SR and ED. This information might make it worthwhile for you to take the time to read this book because it talks about millions of dollars in potential tax benefits and possibly cash refunds to you and to your business over the years and in some cases even in just one year!
