### **Reviews**

*This is the very best publication we have read through right up until now. It is one of the most incredible book we have read through. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Springer. Paperback. Condition: New. 588 pages. Dimensions: 9.0in. x 6.2in. x 0.9in. This volume provides a comprehensive, state-of-the-art survey of conceptual modeling. It includes invited papers, research papers, and abstracts of industrial presentations given at ER2000, the 19th International Conference on Conceptual Modeling, held in Salt Lake City, Utah. Continuing in its long tradition of attracting the leading researchers and practitioners in advanced information systems design and implementation, the conference provided a forum for presenting and discussing current research and applications in which the major emphasis was on conceptual modeling. The conference topics reflected this strong conceptual modeling theme while recognizing important, emerging developments resulting from recent technological advances. The call for papers for the research track resulted in the submission of 140 papers from researchers around the world. Of these, 37 were selected for inclusion in the program. The authors of these papers are from 14 countries. These papers represent a variety of topics including: Database integration Temporal and active database modeling Database and data warehouse design techniques Analysis patterns and ontologies Web-based information systems Business process modeling Conceptual modeling and XML Engineering and multimedia application modeling Object-oriented modeling Applying object-oriented technology Quality in conceptual modeling Application design using UML Three internationally recognized scholars in the area of conceptual modeling also submitted papers and delivered keynote speeches: John Mylopoulos: From Entities and Relationships to Social Actors and Dependencies Salvatore T. March: Reactions on Computer Science and Information Systems Research Philip A. Bernstein: Generic Model Management Why We Need It and How to Get There In addition to the research papers and invited papers, the conference included two workshops, two pre-conference full-day tutorials, four short tutorials, four industrial sessions, and two provocative panel discussions. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
