Excerpt: . . . the one great advantage of being easily recognizable, and hence of needing no demarkation. This advantage is particularly valuable under primitive conditions and in thinly peopled or unoccupied territories, where a recognizable limit is needed and a precise and costly demarkation is undesirable or unnecessary. Some of the North American river boundaries seem to be inheritances from this stage of development. But against this advantage there are very great disadvantages associated with the adoption of rivers as boundaries between civilized states. A valley is a natural unit; and as the land becomes fully occupied the river tends to become the axial line of an area of dense population, and so a place of frequent intercourse in trade and social life: so that the peoples of its banks become more or less 1 See E.
