Conservative estimates establish that there are approximately 22 major religions with at least 500,000 followers. More liberal estimates calculate approximately 5000 religious groups that exist on the Earth as of 2016 and over 60,000 religious groups in recorded human history. It is estimated that among these groups they have worshiped 2000 to 1 million gods at present and over 20 million since recorded history. There have been the gods of the Hittites, Greeks, Romans, Hindus, Buddhists, Zoroastrians, Celts, Norse, Egyptians, Polynesians, Huns, Africans, Aborigines, Native Americans, Mayans, Incans, Aztecs, Chinese, Japanese, Shintos, Jews, Christians and Muslims to name some. The following conditions have always prevailed in the evolution of religion and the belief in deities or gods. 1.) Humans have been subject to unknown forces outside their control such as droughts, floods, storms, earthquakes and death to name a few since the beginning of their existence. 2.) The human mind has a fundamental propensity or need to find security through explanation and control of these forces including answers to questions such as why we exist, where we...
