 Simulation of DSCDMA and WCDMA system for multiuser image transmission

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Mobile communications has become ubiquitous these days. With the advent of multi-media applications, there is now need for higher bandwidth and faster data rates. CDMA communication system offers efficient mode of communication compared to other communication systems. DS-CDMA system falls short in meeting bandwidth requirements for multi-media applications. WCDMA a 3G technology, is a wideband digital radio communications technology, which provides new service capabilities, increased network capacity compared to 2G technologies. The...
