Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. We have never seen so compendious a statement of the correspondence between Moses and Science, nor one which we would more gladly see in the hands of every intelligent Bible student. . . . We can honestly commend Dr. Townsend s luminous exposition of the general problem. - Christian Standard. The argument perhaps offers as few difficulties as any theory that has been propounded. With its supplementary notes the book furnishes a concise study of one of the most interesting of all questions. - Morning Star. He takes as a working hypothesis, a theory that the evolution or creation of the physical universe, including our earth, has consumed periods so vast that the human mind cannot comprehend them; and that apparently there are, in geology at least, six well-marked periods of activity, having immense durations, which may properly be termed cosmical or geologic days, and that these periods are prophetic or typical of six literal days, during which the Creator brought into being the vegetable and animal life now found upon the earth s surface. The scheme is ingenious and well developed. - Central Christian Advocate.
