Why We Bite the Invisible Hand: The Psychology of Anti-Capitalism

By Dr Peter Foster

Pleasaunce Press, United States, 2014. Paperback. Book Condition: New. 226 x 140 mm. Language: English . Brand New Book. In Why We Bite the Invisible Hand, Peter Foster delves into a conundrum: How can we at once live in a world of expanding technological wonders and unprecedented well-being, and yet hear a constant drumbeat of condemnation of the system that created it? That system, capitalism, which is based on private property and voluntary dealings, is guided by the Invisible Hand, the metaphor for economic markets associated with the great Eighteenth Century Scottish philosopher Adam Smith. The hand guides people to serve others while pursuing their own interests, and produces a broader good that, as Smith put it, is no part of their intention. Critics, however, claim that the hand is tainted by greed, leads to inequity and dangerous corporate power, and threatens not merely resource depletion but planetary disaster. Foster probes misunderstanding, fear and dislike of capitalism from the dark satanic mills of the Industrial Revolution through to the murky concept of sustainable development. His journey takes him from Kirkcaldy, the town of Smith's birth, through Moscow McDonald's and Karl Marx's Manchester, on a trip to Cuba...

Reviews

This publication is fantastic. It can be really intriguing through looking at time. You may like the way the author composes this publication.
-- Mr. Wilber Thiel

Thorough guideline! It's this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.
