The Crowood Press Ltd. Paperback. Book Condition: new. BRAND NEW, Air Pistol Shooting: A Guide to Pistols and Techniques, John Bezzant, This invaluable, well-illustrated book presents a carefully crafted, step-by-step programme which teaches the complete novice air pistol shooter how to attain a high level of marksmanship. The training begins with a detailed consideration of safety procedures, basic pistol craft, range construction and the types of air pistol that are available (spring-powered, pneumatic and CO2) and how they work. The author then moves on to consider holsters, targets, and the advanced skills associated with trigger control, the hold, presentation, the stance, the fast draw and rapid fire shooting. Finally, detailed attention is paid to marksmanship exercises but the author emphasizes that these should only be undertaken after all of the techniques set out in the previous chapters have been mastered.
