INTERFACING WITH C

ELSEVIER SCIENCE TECHNOLOGY, United Kingdom, 2001. Paperback. Book Condition: New. 2nd Revised edition. 214 x 138 mm. Language: English . Brand New Book. Previous Edition: 0 7506 2228 8 is published on 19/06/95. This book is about interfacing personal computers using C. Students will also find this a practical introduction to real-time programming with a generous collection of tried and tested programs. The pace of the book is such that the reader is encouraged to run the programs and experiment with C. He has also increased the scope of the book to include current forms of C++. Material on data acquisition has been thoroughly updated and the section on peripherals increased. A disk containing the source code for the listings in the book is available from Electronics World magazine. This title offers a practical and painless way of becoming an expert C programmer. New edition also covers C++ and the Windows environment. Get up...
