BONTRAGER S TEXTBOOK OF RADIOGRAPHIC POSITIONING AND RELATED ANATOMY (HARDBACK)

Elsevier - Health Sciences Division, United States, 2017. Hardback. Condition: New. 9th Revised edition. Language: English . Brand New Book. Master radiographic positioning with this comprehensive, user-friendly text. Focusing on one projection per page, Bontrager s Textbook of Radiographic Positioning and Related Anatomy, 9th Edition includes all of the positioning and projection information you need to know in a clear, bulleted format. Positioning photos, radiographic images, and radiographic overlays, presented side-by-side with the explanation of each procedure, show you how to visualize anatomy and produce the most accurate images. Updated to reflect the latest ARRT competencies and ASRT curriculum guidelines, it features more than 200 of the most commonly requested projections to prepare you for clinical practice. Labeled radiographs (radiographic overlays) identify key radiographic anatomy and landmarks to help you recognize anatomy and determine if you have captured the correct diagnostic information on your images. Positioning chapters, organized with one projection per page, present a manageable amount of information in an easily accessible format. Unique page layout with positioning photos, radiographic images, and radiographic overlays presented side-by-side with the text explanation of each procedure to facilitate comprehension and retention. Pathologic Indications list and define the pathologies most likely to be encountered during procedures covered in each chapter to help you understand the whole patient and improve your ability to produce radiographs that make diagnosis easy for the physician. Pathology Demonstrated sections explain why a particular projection is needed, or what pathology might be demonstrated, to give you a larger frame of reference and a better understanding of the reasoning behind each projection. Radiographic Criteria on positioning pages provide standards for evaluating the quality of each radiograph, helping you develop a routine for evaluating radiographic quality. Pediatric Applications prepare students for clinical success - and prepare technologists to deal competently with the special needs...
